

RPYO Mailing Information Survey

We would like to find out what works best for you as regards various mailings you'll receive from the RPYO this year. We are flexible and are willing to try sending out our letters, updates, newsletters, etc. in a variety of formats. We have found over the years that post-office delivered mail directly to our students' home and addressed to both the student and the parents seems to get the most attention from most students. But we'd like to know if this is still the case. At times I will have information sheets or packets laid out at rehearsals for students with their names. Please remind your student to share this with you, and not to keep it in cases or music folders!

Thank you! Susan Basu
